About Me

Fullstack Web Developer nearly two years of professional experience, proficiency in React, CSS, HTML, JavaScript, JS Libraries, and MUI library. Experienced in backend development with Django, Postgresql, Elasticsearch, and Python. I am skilled at crafting user-focused, high-impact solutions both independently and as part of cross-functional teams. Currently learning about system design patterns, testing with unittest/pytest and github actions.

Additionally, my professional experience includes a solid expertise in risk analysis, dedication to customer service and experience managing, coordinating and mentoring people.

Outside of work, I'm passionate about learning from others in the community and collaborating toward the common good.

Skills

- React
- Javascript / HTML / CSS
- Mui Material Design
- SQL / PostgreSQL / Elasticsearch
- Django / Python
- Linux (Ubuntu)
- Figma
- Notion

Languages

English (Intermediate)

Spanish (Native)

DAIANA TERRANOVA

Fullstack Web Developer

Experience

Fullstack Web Developer 02/23 - Present

Presidencia de la Nación Argentina

- Engineer robust components with **React** and **MUI**, enhancing the tool's scalability for future expansions while rigorously optimizing and refactoring code to ensure seamless adaptability to evolving requirements.
- Tailored the MUI library to design a high-performance interface optimized for 2K and 4K devices, aligning with users' specific hardware requirements for enhanced visual experience and functionality.
- Designed and implemented the light theme for the system, enhancing user experience and accessibility.
- Authored comprehensive user documentation in LibreOffice, equipping users with clear, step-by-step guidance to navigate and effectively utilize the system.
- Demonstrated autonomy in resolving backend tasks using **Django** and **Python**, reducing backend team workload and speeding up dependent frontend tasks.
- Efficiently manage complex data sets using SQL and NOSQL databases, such as **PostgreSQL** and **Elasticsearch**.
- Collaborate using **Git** for version control and develop the tool within virtual environments using **Docker**, ensuring seamless integration and efficient deployment.

Frontend Web Developer 10/23 - 10/24

Personas IT Consultant

- Developed visually engaging interfaces for the editorial team using **HTML**, **CSS**, and **JavaScript**, making content more attractive, user-friendly, and easier to read.
- Integrated developments into the production environment within the **Brightspot CMS**, enhancing **organic SEO** performance across implemented articles.
- Integrated **JavaScript libraries** that accelerated feature development and minimized implementation time, driving efficiency in deliverables.
- Led client interactions to **gather requirements**, define project scope, and align expectations, reducing misunderstandings and ensuring a streamlined project delivery process.
- Strategically planned tasks and established clear delivery timelines using **Notion**, while presenting transparent progress to the client via Excel, optimizing team efficiency and communication.
- Designed and validated project requirements with **Figma**, ensuring alignment with client needs before implementation to prevent costly post-development changes.

Education

Certified Tech Developer 07/23 - 04/24
Digital House

Concepts: Agile Methodologies, OOP with Java, Imperative Programming with JS, Web Design (HTML, CSS, JS), Databases with MySQL, Unit Test, Design Thinking Principles.

Frontend Practical Course 05/23 - 07/23
Platzi

Concepts: HTML / CSS

Full Stack Web Developer Route 07/22 - 12/22
Open Bootcamp

Concepts: Introduction to Programming, Python, Docker, HTML/CSS, Bootstrap.

Frontend Developer Course 10/22
Platzi

Concepts: HTML / CSS / Javascript
